

“ DG press ServiceS bv is a company with the experience, know-how and the innovative drive of Drent Goebel specialists to be At Your Service ”

Shared expert visit of Drent specialist

Often you feel the need for support of a specialist on your Vision, VSOP or Gazelle. This might be for additional training, solving issues on your press or just maintenance or repair.

If you are located on significant travel distance from our office, like in North or South America, Asia or Russia. The **travel costs** involved are significant and often a reason to not to order such support.

To reduce the required travel costs DGpS developed the shared expert visit concept.

This concept implies that the travel costs to an region will be spread over a number of Drent Users in that region. **The more customers sign in, the cheaper the visit will be.**

The visits are **preplanned, 3-4 times per year** per region. We will announce you when we will travel to a region and when we will be able to visit your plant. You decide if you want to use the opportunity and we plan for a visit. This visit will be executed if at least three companies can be visited in one trip. So the travelling costs are at least divided by three. In case we can combine more companies in one travel you will be charged even lower.

This concept is developed in line with DGpS's central objective **to bring the performance of existing and future VSOP, Vision and Gazelle rotary web offset presses to a higher level in terms of output and return on investment.**

- **Significant lower visiting costs for an allround expert on your machine.**
- **Planned visits on a regular base without a fixed long term commitment such as a maintenance contract.**
- **Visits can be used for all kind of activities: inspection (health checks) adjustments , training, problem solving, repair, modifications, maintenance or just advice to improve on your press operations.**
- **Updates and latest information about improvements and modifications on a general base.**
- **Assistance for collecting the right spares and advice about stock keeping.**

- Shared cost are all traveling costs to, in and from a region.
- All traveling costs are all transportation costs, lodging , traveling hours etc.
- Division key for sharing is the days on site.
- Visits are preplanned. DGpS can cancel a planned visit in case the required minimum of tree sharing companies is not met.
- Invoicing for Vision and VSOP in coordination with Muller Martini.
